### SPECIALTIES

Construction and Project Supervision

### SUMMARY

Tom brings a wealth of project management and construction experience to Compass Commercial's Construction Services (CCCS) team. As a project superintendent, Tom utilizes his hands-on construction based knowledge and management experiences to ensure the successful outcome of each client's project. He demonstrates a dedication to all clients and maintains excellence in the services delivered.

### BACKGROUND & EXPERIENCE

Tom's background includes 30+ years of experience in project management, supervision and quality control positions throughout a range of project types including hotels, schools, churches, government buildings, high-tech office buildings, and water and sewer treatment facilities. Before moving to Bend in 2011, Tom served as superintendent and quality control manager for Jacobsen Construction completing projects throughout the U.S. His recent projects include The Brickhouse restaurant remodel in downtown Bend, projects for the National Forest Service, Oregon Department of Transportation and LDS Church.

### ACCOMPLISHMENTS & ACCOLADES
